

CHIPMASTER™ Drag-Out Conveyor Systems

An Economical Solution
for Fine Chip Removal
and Filtering Coolant!

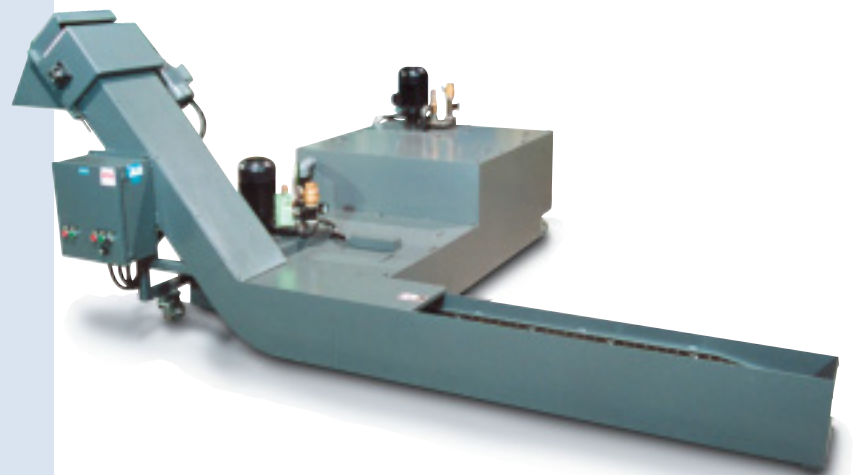

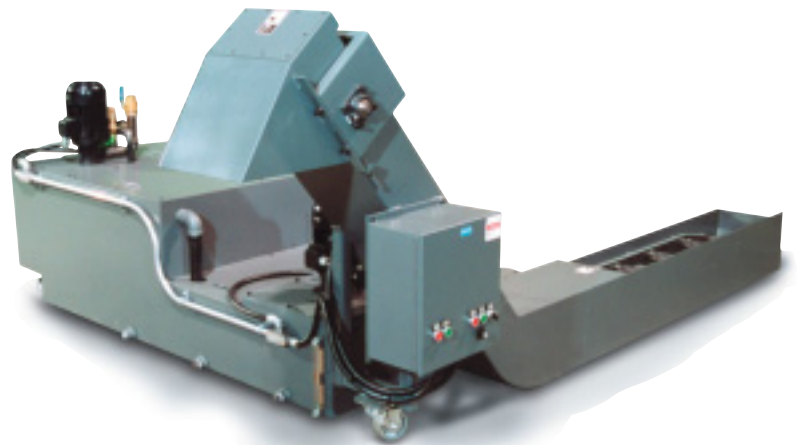

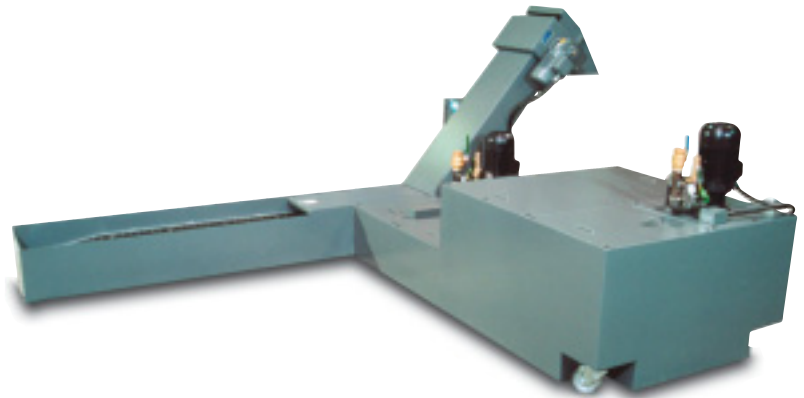

ChipMaster™ Drag-Out & Filter Conveyor System provides an economical solution for transporting fine chips and turnings such as cast iron and aluminum while providing an extremely efficient coolant filtration system. It features an abrasion resistant bottom, replaceable cleats and it is designed for low maintenance. The box filters are continuously self-cleaning and effectively remove particles as small as 250 microns. The entire system is designed to run smooth and efficient with a minimal loss of coolant.

Features:

- High efficiency gear motors
- Standard ANSI or RS attachment chain
- High carbon steel tracks

Options:

- Coolant Pumps
- Self-cleaning filter boxes
- Bag filters
- Controls
- Castors
